RN Idea Shop started as a requirement to register at craft fairs selling fold-back pens and coasters. Then it expanded to services, from babysitting and handyman work, to software tutoring. Recently we are focusing on products we can laser cut and etch in our basement. We sell through retailers or other volume orders (eg. 6 minimum on larger items and 10-12 minimum on small ones) rather than as an online store.

As a result, our former “catalog” has now morphed into a portfolio to show you the types of things we have made. The product codes are included where available to provide you ways to discuss specific designs that we could make as is or modify with a text or etching of your choice.

Contact us for current pricing.

Please note that some inlaid wood designs (eg. Coaster CGG002i) are made to minimize waste by using pairs of woods within the same design. In this case wholesale orders are made in multiples of the item. So, for instance, one item will be made using maple wood with a cherry wood inlay and its partner will be the same design made with cherry wood and a maple inlay.

Disclaimer: Actual product may not look the same as the picture because items are made from a variety of different woods. Also, even woods of the same species vary considerably from one piece to another in their color, grain and their reaction to lasering.

Call Bob Nelson at 815-814-0221 to schedule local face to face orders near Crystal Lake, IL. Or email me for more information.

These are some of the sanded and buffed hardwoods used in our products and contain no stain or paint. We do use clear lacquer on coasters to make them liquid resistant on the top side, and on some wall art for long-term sealing.
From top: Walnut. Cherry. Hard maple. Padauk. Wenge. Purpleheart. Canary wood. Bloodwood.
